Permafrost, Firing Range and Firing Range 2 V2. MODERN WARFARE 2 COD MW2 MODFILES =====  
This Mod Contains \* All Maps For MODERN WARFARE 2 Including Permafrost Firing Range And Firing Range 2 V2, With All Maps Configured So They Will Play Differently From Normal Mode. \* Modern Warfare 2 Multiplayer Add-Ons, Including All Multiplayer Campaigns, Multiplayer Maps And Multiplayer Game Modes. Modern Warfare 2 Multiplayer Reborn. Modern Warfare 2 Multiplayer Reborn is a config mod for MW2 that brings back MW2 Multiplayer. It is an almost complete overhaul of multiplayer. This mod brings back all game modes from the original Modern Warfare 2 with the option of the CQC campaign map and everything you remember from MW2. The CQC campaign mode is optional and does not change multiplayer maps or game modes. You can play CQC on the same maps that you played Modern Warfare 2 on and vice versa. It is also possible to play a saved game on CQC and finish the CQC campaign on the same map as the save game. Multiplayer maps include the FPS and CQC maps. Multiplayer game modes includes Kill Confirmed, Search & Destroy, and Domination. We have also added completely new maps on a new map list. The new maps can be played with all game modes, even if the map was not there in the original Modern Warfare 2 multiplayer. The user interface has been overhauled. Now you can see and change your stats, server and multiplayer game mode setup, add/remove custom ruleset, and add/remove players. Replay mode has been overhauled to allow the user to save the replay. The replay can be played in both One-Shot and Team-Sniping modes. Replay can also be played for any player if you right click on him, or any team if you press Shift + Command on the keyboard. This will prevent the player from kicking you, and make the replay automatically go to the next goal. The user interface has also been completely overhauled to make it much simpler to use. The user interface has been completely overhauled to make it much simpler to use, and to fit a modern and professional look to the client. It also allows the user to switch between Xbox 360 and PS4. Now that we have the interface complete we will be taking on the future updates, namely the bot warfare. If you have any questions or request a feature or something to be added, please contact
